2.5	Special Character	3
2.6	Build Command	3

1 Introduction

I have learned

- title
- section
- list

2 Result

this is result section

2.1 Termial Recorded

```
$ latexmk -pdf -halt-on-error latex_basic.tex
Output written on latex_basic.pdf
Latexmk: All targets are up-to-date
```

```
\documentclass{article}
\usepackage{amsmath}
\usepackage{graphicx}

\title{tittle}
\author{author}
\date{date}

\begin{document}

\maketitle

\section{Introduction}

I have learned
\begin{itemize}
    \item title
    \item section
    \item list
\end{itemize}

\section{Result}
this is result section

\subsection{Formula}
\begin{equation}
```

图 1: screenshot

表 1: toos and result

Tools	Result
git	pass
latex	pass

2.2 Figure

Figure 1 is a screenshot

2.3 Formula

$$T = a + b \tag{1}$$

公式 1 shows the total

2.4 Table

this table 1 show the result and tools

2.5 Special Character

I will put my 100% effort to my career this is latex_basic.tex file shell & git

2.6 Build Command

测试中文支持 this is build command subsection

1. first step writing code
2. second step compile
3. third step recompile
